Project 2 Proposal

For my Research project, I plan to do a sports car showing. This showing will involve many sports cars that are around the world, including: Chevrolet, Ford, Dodge, Toyota, Honda, Porsche, Ferrari, BMW, Lamborghini, Maserati, Audi, Nissan, Jaguar, and McLaren Automotive. The showings, will start in order from companies A-Z. The official convention will be hosted at the Indianapolis Convention center and will start on April 16th, 2025 from 9am-11pm. Tickets will be announced on April 5th 2025. My webpages will have a home page, auto company history page, information page, and gallery page.

For my website I plan to use 14 sports cars from my favorite car companies. For Chevrolet I will be using camaros and corvette. The Ford company will have Mustangs. For Dodge, they'll have challengers and vipers. The Toyota company will have corollas and supras. Honda will be hosting civics and pilots. Nissan will be hosting sentras, Z, and gt-r. Audi will host their Rs and s series of sports cars. All other cars will be hosting their famous sports cars as well.
