Project 1: Art Show Proposal

For my art show, I want to showcase artists that specialize in miniature sculpture. Some artists I am considering for the show are Tatsuya Tanaka, Willard Wigan, Lim Pui Wan, Michael Yurkovic, Lucy Francis Maloney, and Derrick Lin. This show will be located in Tucson, AZ at The Mini Time Machine Museum of Miniatures. I would say that the theme is everyday life because these artists are mostly crafting their miniatures from everyday scenes and everyday people. The name of the show is “Microscopic Mankind”. The website for this art show will have a home page with a small description of what visitors can expect from the exhibition as well as a small slideshow of the various artists’ works together. There will be several sections in the navigation bar for each artist in the exhibition. Clicking on their name will lead you to a different page that contains several images of their work and artist profile. There will also be a section at the bottom of the home page for the gallery information (location, tickets, etc.).

Willard Wigan

Michael Yurkovic
