

Project Proposal: Code & Canvas – A Digital Art Exhibition

Type of Art

This exhibition exclusively features digital art, including AI-generated pieces, 3D renders, generative art, and interactive visuals.

2. Featured Artists

[Beeple](#) – American graphic designer and digital artist

Sienna Moore – AI-assisted digital painter blending human creativity with machine learning.

[Alberto Seveso](#) - is a digital artist from Prague, Czech Republic. His work balances the line between reality and fiction through highly elaborate 3D renderings, exploring themes of pop culture, digital media, the internet, futurism, and consumerism, often with melancholic undertones.

[David Sossella](#) – Illustrator and visual artist known for intricate, surreal artwork blending fantasy, pop culture, and fine art with fluid, dreamlike compositions.

3. Location & Gallery Name

Held at The MoDE - The Museum of Digital Experiences

4. Theme of the Show

"Code & Canvas" explores how technology and creativity connect, challenging authorship and the role of digital tools in art.

5. Title of the Show

Code & Canvas: A Digital Art Exhibition

6. Website Design & Concept

The website will have a **sleek, futuristic aesthetic with a dark mode interface and neon accents.

Gallery: Users can explore an interactive 3D space showcasing the artwork.
