

Observation: Germán Patricio Ansón

October 1996

Spanish 201

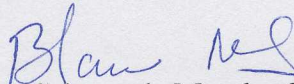

Strengths:

- Good Spanish skills
- Excellent communication with students
- He kept good eye contact and walked around the classroom
- Good use of various activities and visual media

Areas to work on:

- You should use a bigger type of handwriting or font in your transparencies

Overall, this was a very enjoyable class. Students were active and Germán kept their interest with all the activities they were doing. Germán is an excellent teacher. He knows the material well. He included a variety of short term activities that kept the class alive. He used the board and transparencies. I think that Germán's class can be observed by other teachers to get ideas.
