Math 273 - Fall 2016
Homework 7
Due October 25, 2016

Anyone who believes exponential growth can go on forever in a finite world is either a madman or an economist.

—Kenneth Boulding

Turn in:

From the textbook: 3.8.10, 3.9.8, 3.9.46, 4.1.30, 4.1.48

Recommended (Don't turn in):

From the textbook: 3.8.10, 3.9.18, 4.1.34, 4.1.50
Take a look at the Chapter 3 review exercises (pages 267-269) for practice for the midterm.
